COVER LETTER

I am reaching out to express my interest in the Designer position at your company as an experienced freelancer. I have been involved in design since my school days.

My journey in design began back in school, where my passion for design led me to my initial creative endeavors. Over the past three years, I have worked as a freelancer, focusing on Web design, UI, booklets, stickers, brochures, posters, business cards. Additionally, I actively incorporate knowledge of neural networks to enhance and diversify my work in design.

The opportunity to join you has captured my interest, and I am ready to contribute my experience and creative perspective to your team. I believe that my practical experience, coupled with a variety of projects, can be a valuable addition to your creative environment.

While I lack formal education in the field of design, I am confident that my practical skills and project outcomes speak for themselves. I am convinced that in the field of design, experience and a creative approach are sometimes more crucial than a university diploma.

Thank you for considering my application. I am ready to discuss in more detail how I can contribute to your team.

Sincerely,
Nikita
